

PFW 4000 Series

Maximum security in public places

A straightforward wall mount with the renowned Vogel's quality. A simple and affordable solution for installing displays in public spaces where supervision is limited. Displays can be locked in two ways for an optimal theft-prevention solution.

Attractive design and price

The 4000 Series offers a reliable Vogel's wall mount for displays from 10" to 80". The wall mounts ensure a completely flat wall installation and are available in fixed and tilting versions. The tilt function can be adjusted in steps, making higher mounted displays easy to see and read.

Always level

Specially shaped drill holes allow the position of the wall plate to be adjusted once it has been mounted to the wall. This ensures that the mount is always level. Everything you need for installation is supplied in the box, including high-quality mounting materials. This ensures that you have everything to hand.

Key features

- Tilt in steps 0°, 7°, 12° and 15°
- VESA max. 600x400 mm
- Fixed tilt position
- Autolock®
- Locking bar and padlock
